Ms Maia Melikidze

**Chair of the Energy Regulators Regional
Association (ERRA)**

Dear Ms Melikidze!

On behalf of the National Energy and Utilities Regulatory Commission of Ukraine I express my deep appreciation and sincere gratitude for your constant support, especially in the times of Russia's blatant and brutal violation of fundamental principles and norms of the international law by waging a full-scale military invasion in Ukraine.

First of all, I would like to congratulate you, Ms Melikidze, on your re-election as the Chair of the Energy Regulators Regional Association and wish you further success and new achievements! I am sure that thanks to your experience, competence and energy ERRA will continue to thrive and develop dynamically.

Please let me express my gratitude to you personally, Ms Melikidze, and to the respectable ERRA Presidium Members for your crystal clear stand to support Ukraine. We are particularly grateful for the Association's decision to allocate funds to the Energy Support Fund for Ukraine and for allotment of free seats on ERRA trainings and seminars for the NEURC staff.

I would like to mention that ERRA educational programs have always played a significant part in development of the Ukrainian Regulator, since it was during the Association's seminars when many our colleagues had the opportunity to get acquainted with the best regulation theory and practices. It is paramount for the institutional development of the NEURC that the Regulator's staff could partake in the Association's events, especially in the course of the synchronization of our power system with ENTSO-E and further integration of Ukrainian energy markets towards the European ones.

In conditions of Ukraine's struggle for its sovereignty, political independence, unity and territorial integrity, we are immensely grateful for sincere and active support from the Association and look forward to future cooperation in developing Ukrainian and European energy sectors.

Chair of the NEURC

K. USHCHAPOVSKYI
